The North East Chapter of the American Association of Airport Executives and the Pittsburgh FAA Regional ARFF Training Facility continue to host the Basic and Advanced Aircraft Rescue and Fire Fighting Schools. These programs are two in a series of schools designed to promote awareness and safety in the ARFF profession. The use of the Specialized Aircraft Fire Trainer and 125' fuel spill area give the schools a realistic feel.

The FAA ARFF Training Facility in Pittsburgh, PA will host the upcoming North East Chapter AAAE ARFF Basic and Advanced Classes for the year 2011.

During September 20-24, 2010, the Pittsburgh International Airport ARFF Training Facility had the pleasure of once again hosting the NE Chapter American Association of Airport Executives (AAAE) Basic and Advanced ARFF Schools.

Students from airports across the country participated in the week-long classes. The classes included both classroom lecture and live fire training.

Several members of the Fire Rescue Department participated as well as our own staff instructors.

We are planning an exciting program for 2011. Sign up today!
