### **Biography**

Mr. Thuma has been an Aviation Design Engineer with Crawford, Murphy and Tilly for more than 20 years and is the Manager of CMT's Military and Special Projects Aviation Group. He primarily works on the design and construction of airfield pavement projects at military and commercial airfields across the country. Prior to joining CMT, he developed a passion for airfield pavement evaluation and design while serving in the US Air Force for 8 years. Following active duty, he continued service in the Air Force Reserves for 13 years while working at CMT, retiring at the rank of Lieutenant Colonel. Rich completed his undergraduate civil engineer education at Northwestern University and later earned a master's degree in civil engineering at the University of Washington.
